

1. Executive Summary

This opening paragraph is intentionally long to test line wrapping and paragraph reconstruction across extraction methods.

This second paragraph follows after extra spacing and should remain a separate paragraph in JSON.

1.1 Scope & Constraints

Constraint A: Inputs may include mixed numbering schemes, punctuation, and short heading-like phrases.

Constraint B: Some paragraphs contain inline markers and emphasized terms that should still map correctly.

1.1.1 Edge Cases

Edge case paragraph one includes dates (2026-06-02), symbols (%,\$,#), and parenthetical notes (alpha, beta).

Edge case paragraph two is short.

2. Findings

Findings paragraph one appears on a later page in PDF to test page transition behavior.

Findings paragraph two concludes the challenging sample.

Appendix A. Styled Tokens

Token A: *BlueBoldItalicMarker.*

Token B: *BlueBoldItalicMarkerSecondary.*

Appendix B. Rich Typography

LargeRedBold *SmallGreenItalic* UnderlinedBlue

Chemistry: H₂O Math: E = mc²

Financial notation: Total = \$ **1,250** (USD)
